

# Module 2 Workbook — Design-Ready Content

---

## "Build Your Pipeline"

**Purpose of this document:** the finished, design-ready *content* for the Module 2 workbook — every label, prompt, and input finalized so it drops straight into visual design. Uses the shared workbook design system established in Module 1 (cover block, section headers, input glossary, quick-win callout, reference callout, completion gate, footer). Only the module-specific content is specified below.

**Annotation key:** [INPUT: ...] = fillable element + suggested space · [NOTE: ...] = design intent · unbracketed text = final on-page copy.

---

## Cover Block

[NOTE: standard cover component. Progress dots 1–10 with dot 2 active.] - Course: **The Complete Brand Partnership Playbook - Module 2 · Finding & Attracting Brands** - Workbook: **Build Your Pipeline** - Promise line: *Your target-brand list, your media kit, and the inbound setup that makes brands come to you.*

---

## PART A — Your Three Channels Today

[NOTE: short orienting self-audit. Mirrors Module 1's "how do deals reach you" so the creator sees movement. Keep it light and fast.]

**Your purpose line (on page):** Opportunities travel through three channels. Mark how much you're using each one today — this is what we're about to build up.

[INPUT: three labeled scales, circle-one each (None · A little · Actively):] - **Direct outreach** — you go to them: None · A little · Actively - **Platforms & networks** — a platform connects you: None · A little · Actively - **Inbound discovery** — they come to you: None · A little · Actively

[NOTE: if most answers are "None/A little," that's the motivation — designer could add a subtle line: "Plenty of room to grow. Let's fix that."]

---

## PART B — Your Target-Brand List

[NOTE: THE core deliverable of this module. Give it the most space — ideally a full page or spread. This is the "Target Brand List Template." Design the table so it's genuinely usable, with room to add rows over time.]

**Your purpose line (on page):** Your pipeline starts here. Aim for 10 today, building toward 20–30. Score priority 1–5 (5 = dream brand, ready to pursue).

**B1. The list** [INPUT: data table, ~12 rows, 5 columns. Header row printed; body rows fillable.]

| Brand  | Why it fits (you use it / aesthetic / audience match) | Where to reach them (platform / email) | Warmed up? | Priority (1–5) |
|--------|-------------------------------------------------------|----------------------------------------|------------|----------------|
| [fill] | [fill]                                                | [fill]                                 | [checkbox] | [number 1–5]   |

[NOTE: "Warmed up?" = have you engaged authentically yet (comments, shares, tags). Small checkbox column.]

**Reference/example callout** [NOTE: muted box.] *Example row — Brand: Lumi Skincare · Why it fits: I use it daily; clean aesthetic matches my feed; their customer = my audience (women 25–40) · Reach: partnerships@lumi.com + IG DM · Warmed up: ✓ · Priority: 5*

**B2.** This week's focus — the 3 brands you'll research and warm up first: [INPUT: three short lines, numbered 1–3.]

## PART C — Your Media Kit Builder

[NOTE: content-gathering checklist, not a design canvas. Goal: the creator leaves with every piece of media-kit CONTENT written down, ready to hand to a template or designer. Pull-forward fields from Module 1 should be visually flagged as "from Module 1."]

**Your purpose line (on page):** One page that sells you in 30 seconds. Gather the content here — design comes later. Lead with engagement and audience fit, not follower count.

[INPUT: checklist with a fill field beside each item:] - ☐ **Bio** — your niche + what makes you valuable, in 1–2 sentences: [long box, 2 lines] - ☐ **Audience demographics** — [NOTE: from Module 1 snapshot – flag it] age / location / gender / interests, with %: [long box, 2 lines] - ☐ **Engagement metrics** — [NOTE: from Module 1 – your pricing-power number] engagement rate + any standout numbers: [short line] - ☐ **Best content** — 3–5 links or descriptions of your strongest pieces: [long box, 2 lines] - ☐ **Case studies** — any past results worth showing (optional if new): [long box, 2 lines] - ☐ **Contact** — business email + handles: [short line]

**Quick-win callout** [NOTE: highlighted box.] *Your strongest opening line, ready to use: write your follower count + engagement rate + who your audience is, in one sentence.*

[INPUT: long box, 2 lines]

[NOTE: example placeholder, lighter weight: "50K followers · 6.8% engagement · 82% women 25–40 shopping sustainable products."]

## PART D — Your Inbound Setup & Weekly System

[NOTE: combines the quick inbound fixes with the habit that keeps the pipeline alive. The weekly commitment is the behavioral payoff of the module – give it a little visual emphasis at the bottom.]

**Your purpose line (on page):** Quick fixes that make you findable, plus the habit that keeps your pipeline full.

**D1. Inbound setup checklist** [INPUT: checkbox group:] - ☐ Professional business email in my bio - ☐ Business / Professional account designation switched on - ☐ "Partnership inquiries:" line added to bio - ☐ Niche hashtag set chosen (list 5–10): [long box, 2 lines] - ☐ Simple landing page planned or built (Squarespace / Wix / Carrd) - ☐ Identified 3 creators in my niche to connect with: [short line]

**D2. Platforms to set up first** — the 2–3 most relevant to your niche: [INPUT: three short lines.]

**D3. Your weekly pipeline habit** [NOTE: emphasized box – this is the behavior change.] Each week I will add \_\_\_ new brands to my list and warm up / prep outreach for \_\_\_\_ of them. [INPUT: two small number fields inline.] *Pipelines reward consistency, not bursts.*

---

## Completion Gate

[NOTE: standard component.] **You're ready for Module 3 when you've:** [INPUT: 4 checkboxes:] ☐ Listed at least 10 target brands with priority scores (Part B) ☐ Gathered your full media kit content (Part C) ☐ Completed the quick inbound profile fixes (Part D) ☐ Written down your weekly pipeline habit (Part D)

*Bring your target list and media kit forward — they're the raw material for pricing, pitching, and negotiating.*
