

Module 7 Workbook — Design-Ready Content

"Lock It Down"

Purpose of this document: the finished, design-ready *content* for the Module 7 workbook. Built around the eight contract sections (matching the Contract Builder) as a reusable review checklist, plus an FTC Disclosure Cheat Sheet and a Business-Basics next step. Uses the shared workbook design system from Module 1 (cover block, section headers, input glossary, quick-win callout, reference callout, completion gate, footer). Module-specific content below.

Annotation key: = fillable element + suggested space · = design intent · unbracketed text = final on-page copy.

Asset tie-ins: the Contract Builder is the primary tool. The existing **Influencer Contract Template** is a complementary reference. The FTC Cheat Sheet here is reusable across every deal.

Required disclaimer in workbook footer area: *Educational only — not legal advice. For high-value or complex deals, consult a qualified attorney.*

Cover Block

- Course: **The Complete Brand Partnership Playbook - Module 7 · Contracts & Legal Essentials** - Workbook: **Lock It Down** - Promise line: *Audit any contract against eight sections, never miss an FTC disclosure, and take your first real business-structure step.*

PART A — Pick a Deal to Lock Down

Your purpose line (on page): Pick one real deal — upcoming, in progress, or recently signed — to run through this workbook.

- **Brand / deal:**
 - **Status:** Negotiated, awaiting contract · Contract being drafted · Already signed (auditing) · Already completed
 - **Deal type** Single Post · Multi-Post Campaign · Long-term Partnership · Brand Ambassador · Product Review · Event Coverage · Content Licensing
-

PART B — The 8-Section Contract Review Checklist

Sections 6 and 7 are flagged Optional. Designer: consider visually grouping the required 6 vs. the optional 2.]

Your purpose line (on page): Walk every contract through these eight sections. If you can't check a box, fix it before you sign.

[INPUT: 8-row review table. Columns: Section · What to confirm · Locked? · Notes / changes needed]

#	Section · What to confirm	Locked?	Notes
1	Parties & Scope · Correct legal name (you or your business entity); effective date; brand entity + contact person named.	☐	[fill]
2	Deliverables & Timeline · Platform, content type, quantity, due date, technical specs, approval days, minimum days live (≥30).	☐	[fill]
3	Payment Terms · ≥50% upfront, Net 30 or shorter, payment method specified, late fee (~1.5%/month) included.	☐	[fill]
4	Usage Rights & Licensing · Duration limited (1 year default), platforms specified, organic vs. paid called out, whitelisting only if paid for, no "general marketing purposes."	☐	[fill]
5	Revisions & Approvals · Max 2–3 rounds defined; brand approval turnaround capped (e.g. 72 business hours); "revision" vs. "new work" distinguished.	☐	[fill]
6	Exclusivity Terms <i>(optional — only if part of the deal)</i> · Specific competitor categories (not "any in the space"); time period capped; paid for separately.	☐ N/A ☐	[fill]
7	Kill Fee & Termination <i>(optional — strongly recommended above ~\$500)</i> · Kill fee % defined (25–50% after work begins, 100% after delivery); termination notice period specified.	☐ N/A ☐	[fill]
8	FTC Compliance & Disclosures · Disclosure variation matches the deal (Standard / Ambassador / Affiliate / Gifted); disclosure language and placement specified.	☐	[fill]

Reference/example callout [NOTE: muted box.] Example: a \$2,500 Single Post for a sustainability brand → all six required sections ✓; Exclusivity skipped (one-off, no competing-brand restriction); Kill Fee included (worth the protection at this fee size); FTC variation = Standard.

[NOTE: small line below the table: "Can't tick a box? That's the negotiation you still need to have. Take it back to Module 6 before signing."]

PART C — FTC Disclosure Cheat Sheet

[NOTE: reusable reference card. Designed for the creator to print/save and refer to on every sponsored post. NOT a fill section – a scannable reference grid. This is one of the workbook's most-saved assets.]

Your purpose line (on page): One reference card for every sponsored post — print it, save it, never guess.

The four rules [NOTE: design as compact 4-tile grid] - **Clear & conspicuous** — disclosure must be impossible to miss - **Use unambiguous language** — ✓ #ad, #sponsored, #partner · ✗ #collab, #sp, "thanks [brand]" - **Cover every frame** — Stories need disclosure on every single frame, not just the first - **Don't rely on platform tags alone** — "Paid Partnership" tag supplements, never replaces

Format-by-format [NOTE: small reference table. 5 rows.]

Format	Disclosure rule
Feed post	In caption, before the "more" button (within first 125 characters)
Stories	On every frame of sponsored content (text sticker is fine)
Reels / TikTok	In caption <i>and</i> verbally/visually in the video (first 30 seconds)
Affiliate links	"May earn a commission" disclosure even without direct payment
Gifted product	Still required — #gifted or "[brand] sent me this"

Quick-win callout [NOTE: highlighted box.] *Self-audit: pull up your most recent sponsored post. Is the disclosure visible before the "more" button? Is the language explicit (#ad, not #collab)? If you posted Stories, is it on every frame? If video, is it verbal AND visual? Anything missing — fix it now.*

[INPUT: 3 checkboxes for the self-audit] - ☐ Disclosure visible / not buried - ☐ Explicit language used (#ad, #sponsored, or #partner) - ☐ Every format covered (caption + verbal/visual / every Story frame)

PART D — Your Business-Basics Next Step

[NOTE: action-forward, NOT exhaustive tax/legal advice. Goal: get the creator to take ONE concrete step toward better business hygiene. Designer: light, not legalistic.]

Your purpose line (on page): One concrete step toward running this like a real business. Pick the one that's overdue.

D1. Where are you now? [INPUT: checkbox group] - ☐ Business income lands in my personal account - ☐ I have a separate business bank account - ☐ I'm a sole proprietor (no LLC / business entity) - ☐ I have an LLC or equivalent - ☐ I track business expenses regularly - ☐ I set aside 25–30% of every payment for taxes - ☐ I make quarterly estimated tax payments - ☐ I work with an accountant

D2. Pick one next step - Open a separate business bank account this week - Set up the 25–30% tax set-aside habit (auto-transfer on every payment) - Start tracking expenses (QuickBooks / FreshBooks / Wave / spreadsheet) - Look into forming an LLC (or your country's equivalent) - Find and book a first call with an accountant - Other:

D3. When will you do it?

Completion Gate

You're ready for Module 8 when you've: ☐ Generated a real contract in the Contract Builder for an actual deal (Part A + Builder) ☐ Reviewed it against all eight sections (Part B) ☐ Self-audited your last sponsored post with the FTC Cheat Sheet (Part C) ☐ Picked and dated your next business-basics step (Part D)

The contract is signed. Now you deliver — and you deliver in a way that gets you rebooked. That's Module 8.
