

Module 8 Workbook — Design-Ready Content

"Deliver Like a Partner"

Purpose of this document: the finished, design-ready *content* for the Module 8 workbook. Four reusable assets built around the workflow of an actual delivery: a content brief, a shot list, a posting-day optimization checklist, and the performance report template — the last of which is the highest-value reusable asset in the module. Uses the shared workbook design system from Module 1 (cover block, section headers, input glossary, quick-win callout, reference callout, completion gate, footer).

Annotation key: [INPUT: ...] = fillable element + suggested space · [NOTE: ...] = design intent · unbracketed text = final on-page copy.

Continuity: content brief feeds from the contract (Module 7); FTC disclosure plan reinforces Module 7; performance report feeds the retainer pitch (Module 9).

Cover Block

[NOTE: standard cover component. Progress dots 1–10 with dot 8 active.] - Course: **The Complete Brand Partnership Playbook - Module 8 · Delivering Results & Reporting** - Workbook: **Deliver Like a Partner** - Promise line: *Plan it, produce it, optimize it, and report on it — the four-step workflow that gets you rebooked.*

PART A — Your Content Brief

[NOTE: THE first reusable template. One page, designed to be reprinted/duplicated per deal. Six required fields matching the lesson. FTC disclosure plan visually emphasized — this is the most-forgotten field.]

Your purpose line (on page): Fill this for every sponsored deliverable, before you shoot. Twenty minutes here saves hours later.

Deal / brand: [INPUT: short line] · **Deliverable:** [INPUT: short line] · **Posting date:** [INPUT: date]

[INPUT: 6 labeled blocks, long box (2–3 lines each):] - **Key message** — the one thing the audience should take away: [fill] - **Brand value proposition** — what makes their product different, in their words: [fill] - **Required elements** — specific shots, hashtags, talking points, CTA: [fill] - **Creative angle** — your storytelling approach, so it sounds like *you*: [fill] - **Emotional tone** — what the audience should feel: [fill] -  **FTC disclosure plan** [NOTE: visually emphasize – accent color/highlight] — exact disclosure language + where it appears (caption / verbal / on-screen / Story frame): [fill]

B. Draft your caption now [INPUT: long box, 4–5 lines] [NOTE: include a small "✓ disclosure within first 125 chars" check beside it] ☐ Disclosure in first 125 characters · ☐ CTA included · ☐ Brand handle tagged

PART B — Your Shot List

[NOTE: practical companion to the brief. Numbered shot list with type, description, and a check column. Designed so nothing is forgotten on shoot day.]

Your purpose line (on page): Every shot you need, in order. Tick them off as you capture them.

[INPUT: 8-row shot list table. Columns: # · Type · Description · ✓]

#	Type	Description	✓
1	Wide / context	[fill]	☐
2	Medium	[fill]	☐
3	Close-up (product detail)	[fill]	☐
4	Action / product in use	[fill]	☐
5	Hero / beauty shot	[fill]	☐
6	Behind-the-scenes	[fill]	☐
7	[fill – type]	[fill]	☐
8	[fill – type]	[fill]	☐

Reference/example callout [NOTE: muted box.] *Example for a cleaning-product Reel: 1) Wide of kitchen counter with product visible · 2) Medium of pouring/spraying · 3) Close-up of label · 4) Action of cleaning · 5) Beauty shot of clean counter + product · 6) Pull-back to me smiling at camera.*

PART C — Production Quality Self-Audit

[NOTE: scannable checklist before pressing publish. Forces a quality pass against the four pillars. Reusable.]

Your purpose line (on page): Before you publish, run a four-point quality check.

[INPUT: 4 grouped checklists, ~3 items each:] - **Lighting** ☐ Natural light or ring light/panel used · ☐ No harsh overhead shadows · ☐ Skin tones look natural - **Audio** ☐ Lav or shotgun mic used (not built-in) · ☐ No hum / background noise · ☐ Voice levels consistent - **Composition** ☐ Rule of thirds applied · ☐ Background is intentional (not cluttered) · ☐ Angles vary across the piece - **Brand integration** ☐ Product appears in my natural style, not "ad pose" · ☐ Feels like my content, not a commercial · ☐ Audience will care, not scroll

PART D — Posting Day Optimization Checklist

[NOTE: a calendar-able routine, not a fill-in. Designed to be followed on every sponsored post until it's automatic.]

Your purpose line (on page): Block 60–90 minutes after posting. Don't post and disappear.

[INPUT: ordered checklist:] - ☐ Scheduled for my audience's high-activity window (checked platform insights) - ☐ Caption disclosure visible before "more" button — final check - ☐ Posted ✓ - ☐ Story drop pointing to the post, with interactive sticker (poll/question) - ☐ Replied thoughtfully to every comment in the first 60 minutes - ☐ Affiliate link / discount code tested — works, lands on the right product page - ☐ DM replies cleared

PART E — Performance Report Template

[NOTE: THE highest-value reusable asset in this module. Designed to be the exact email/doc the creator sends to the brand. Four-part structure from the lesson. Designer: this section should feel slightly different from the rest – like the creator is filling out a deliverable, not a worksheet.]

Your purpose line (on page): Within 48–72 hours of your reporting window closing, send this to your brand contact. This single habit is what turns one-off deals into retainers.

To: [INPUT: brand contact] · **Subject:** Performance recap — [campaign / post]

1. Headline — the strongest result in one sentence: [INPUT: long box, 2 lines]

[NOTE: example placeholder: "The Reel reached 47,000 impressions at 7.2% engagement – both above projected benchmarks."]

2. Metrics — the numbers, plus screenshots from your platform insights: [INPUT: 5-row mini-table]

Metric	Number
Impressions	[fill]
Reach	[fill]
Engagement rate	[fill]
Likes / Comments / Saves / Shares	[fill]
Link clicks / code uses (if applicable)	[fill]

☐ Screenshots of platform insights attached

3. Context — how this compares to my typical content; honest analysis if anything underperformed:

[INPUT: long box, 3 lines] [NOTE: example placeholder: "Engagement rate hit 7.2% against my baseline of 6.0% – outperformed. Saves were lower, likely because the CTA pushed to the site rather than a save-first prompt. Worth testing next time."]

4. Qualitative feedback — comments, questions, themes — the market research: [INPUT: long box, 3 lines] [NOTE: example placeholder: "Several followers asked where the refillable cleaner is stocked in the UK – might be worth a regional landing page. Strong positive reaction to the no-plastic angle."]

5. Soft next-step prompt [NOTE: print this – it's the line that opens Module 9] *"Happy to share full insights on a call, and to talk about what we could do next."*

Quick-win callout [NOTE: highlighted box.] *Send this even if the campaign feels "over." A thoughtful report two weeks late still beats the 80% of creators who never send one at all. Brands remember it — and they bring it up next time.*

Completion Gate

[NOTE: standard component.] **You're ready for Module 9 when you've:** [INPUT: 5 checkboxes:] ☐ Filled the content brief + shot list for a real upcoming deliverable (Parts A & B) ☐ Done a production-quality self-audit on a recent post (Part C) ☐ Built the posting-day checklist into your routine (Part D) ☐ Filled out a performance report for a recent campaign (Part E) ☐ **Actually sent it to the brand** — not just drafted

A successful campaign + a thoughtful report is the doorway into a retainer. Walk through it in Module 9.
