

Module 9 Workbook — Design-Ready Content

"Turn Deals Into a Business"

Purpose of this document: the finished, design-ready *content* for the Module 9 workbook. Four reusable assets that together turn a successful one-off into a retainer: the conversion email, the ambassadorship proposal structure, the retainer rate calculation, and the relationship-maintenance calendar. Uses the shared workbook design system from Module 1 (cover block, section headers, input glossary, quick-win callout, reference callout, completion gate, footer).

Annotation key: [INPUT: ...] = fillable element + suggested space · [NOTE: ...] = design intent · unbracketed text = final on-page copy.

Continuity: picks up from the Module 8 performance report (Part A picks the strongest recent campaign); builds the proposal on Module 4 pricing and Module 7's Brand Ambassador contract structure.

Cover Block

[NOTE: standard cover component. Progress dots 1–10 with dot 9 active.] - Course: **The Complete Brand Partnership Playbook - Module 9 · Building Long-Term Partnerships** - Workbook: **Turn Deals Into a Business** - Promise line: *Convert a successful campaign into recurring monthly income — a complete proposal, ready to send.*

PART A — Pick Your Strongest Recent Campaign

[NOTE: fast launch. Anchors the rest of the workbook on a real, recent successful deal. Pulls the data from the Module 8 performance report.]

Your purpose line (on page): The conversion window is short — within a week of a strong post performing. Pick the campaign you'd most want to turn into a recurring deal.

- **Brand:** [INPUT: short line] · **Campaign / post:** [INPUT: short line]
 - **Posted on:** [INPUT: date] · **Days since posting:** [INPUT: number] [NOTE: if >2 weeks, small line: "Still worth sending – but go fast."]
 - **Headline result from the Module 8 report:** [INPUT: long box, 2 lines]
 - **Why this brand is worth a longer arrangement:** [INPUT: long box, 2 lines] [NOTE: prompt: "Audience fit, product alignment, team you enjoyed, performance, room to grow..."]
-

PART B — The Four-Part Conversion Email

[NOTE: THE highest-leverage action of the module. Designed as a fill-in email the creator can copy, customize, and send. Four labeled blocks matching the lesson's structure.]

Your purpose line (on page): Send this within a week of a strong post. You're not asking for a retainer — you're proposing one, and asking for a conversation.

To: [INPUT: brand contact] · **Subject:** [INPUT: e.g., "Following up on [campaign] — and what's next"]

1. Lead with the result — reference performance: [INPUT: long box, 2 lines] *Example: "The Reel hit 7.2% engagement and drove 480 site clicks, both above our projections."*

2. Express genuine enthusiasm — show you're invested, not transactional: [INPUT: long box, 2 lines] *Example: "I really enjoyed working with the team, and the audience response was strong — people are still commenting and asking where to buy."*

3. Propose the next stage with a structure — a concrete shape, not "more deals": [INPUT: long box, 2 lines] *Example: "I'd love to explore an ongoing partnership — something like 2–3 pieces a month over the next quarter, so we can build sustained visibility."*

4. Suggest a specific next step — a low-commitment call: [INPUT: long box, 1 line] *Example: "Could we set up a 20-minute call next week to talk through what this could look like?"*

Quick-win callout [NOTE: highlighted box.] *You're asking for a conversation, not a yes. Almost any brand will take that conversation, because nothing's on the table yet. In the call, you arrive with a proposal — Part C.*

Fallback: the "test phase" version [NOTE: muted callout — for when full ambassadorship feels too big after one campaign.] *If they hesitate, propose: "What about three campaigns over the next quarter, and we decide on an ongoing arrangement from there?" — much easier yes, and you get three more performance reports to make the case.*

PART C — Build Your Ambassadorship Proposal

[NOTE: the structure the creator brings to the call. Five-part proposal from the lesson. Designed so they fill this in BEFORE the call, not during it.]

Your purpose line (on page): Arrive at the call with a proposal — not a hope. Brands respect creators who come with structure.

C1. Core monthly deliverables — what's guaranteed each month: [INPUT: long box, 3 lines] *Example: "2× Instagram Reels, 4× Story sets (3–5 frames each), 1× blog post."*

C2. Standing usage rights — granted once for the duration, not per post: [INPUT: long box, 2 lines] *Example: "Organic use on @brand's own social channels for duration of partnership. Paid-ad usage available as add-on."*

C3. Brand mentions in non-sponsored content — natural use/wear that isn't a formal deliverable:

[INPUT: long box, 2 lines] Example: "Product will appear naturally in unrelated content (e.g., morning routine vlogs)."

C4. Add-ons priced separately — extras at pre-agreed rates so nothing gets re-negotiated:

[INPUT: 3-row mini-table]

Add-on	Pre-agreed rate
Extra post for product launch	[fill]
Event attendance	[fill]
Whitelisting / Spark Ads	[fill]

C5. Exclusivity (optional — only if part of deal) [INPUT: circle-one] None · Category-only · Direct competitors only · Other: [short line]

C6. Quarterly review built in [INPUT: checkbox] ☐ Yes — review at month 3 to assess and discuss renewal

PART D — Price the Retainer

[NOTE: rate-calculation worksheet. Builds on the per-deliverable rate from the Module 4 Rate Calculator. Enforces the 10–15% discount range, not deeper.]

Your purpose line (on page): Use your Rate Calculator output as the base. Apply a 10–15% discount — no more — for the commitment.

D1. Per-deliverable rates (from Module 4): [INPUT: 4-row table]

Deliverable	Qty/month	Per-deliverable rate	Subtotal
[fill]	[#]	[\$]	[computed]
[fill]	[#]	[\$]	[computed]
[fill]	[#]	[\$]	[computed]
Stand-alone monthly value			[computed]

D2. Retainer discount [INPUT: circle-one] 10% · 12.5% · 15% [NOTE: subtle line: "Never deeper than 15% unless something exceptional is on the table."]

D3. Monthly retainer: [INPUT: number, large, computed/manual] **D4. Duration:** [INPUT: circle-one] 3 months (test) · 6 months · 12 months **D5. Total contract value:**

[INPUT: computed]

Quick-win callout [NOTE: highlighted box — the four pricing principles, condensed.] Four rules: (1) Never discount below 2× monthly one-off pricing. (2) If exclusivity is included, price it in

separately. (3) Build renewal pricing 10–20% above into the initial agreement. (4) Index add-ons to your one-off rates, not the retainer's discounted rate.

PART E — Relationship Maintenance Calendar

[NOTE: simple scheduling worksheet. The whole point is to put dates on the calendar NOW so check-ins don't get forgotten. Three habits from the lesson.]

Your purpose line (on page): A retainer that gets signed but not nurtured doesn't renew. Schedule the maintenance now.

E1. Quarterly check-in dates — 30-min calls, even when nothing's broken: [INPUT: 4 date fields] - Month 3 check-in: [date] - Month 6 check-in: [date] - Month 9 check-in: [date] - Month 12 check-in / renewal conversation: [date]

E2. Proactive wins-sharing — my rule: [INPUT: circle-one] After every post if it overperforms · Monthly summary · As things happen - Where I'll capture wins to share: [INPUT: short line] (e.g., notes app, spreadsheet)

E3. Stay informed about the brand [INPUT: checklist] - ☐ Following their company/team accounts - ☐ Signed up for their newsletter / press releases - ☐ Google Alert set on the brand name

[NOTE: small line: "Five minutes a month. It's how you sound informed in the next check-in."]

Completion Gate

[NOTE: standard component. Active verbs – SEND and BUILD, not draft.] **You're ready for Module 10 when you've:** [INPUT: 5 checkboxes:] ☐ Picked your strongest recent campaign (Part A) ☐ Sent the four-part conversion email (Part B) — not just drafted ☐ Built the ambassadorship proposal (Part C) ☐ Calculated your monthly retainer using Module 4 rates (Part D) ☐ Scheduled your check-in dates (Part E)

You've built the business. Module 10 is about protecting it — and keeping it running for years.
